REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While Jiminez (U.S. Patent NO. 4,006,831) shows a conveyor transfer apparatus having first and second conveyors with pluralities of spaced apart belt loops, and a plurality of elevator assemblies extending upward through the spaces between the belt loops, the elevator assemblies lower stacks of product onto the first conveyor for transfer to the second conveyor rather than lifting the stacks off the first conveyor so that a plurality of pusher assemblies may push the stacks from the first conveyor to the second conveyor as required by the independent claims. Furthermore, while Pleake (U.S. Patent No. 5,720,593) shows a conveyor transfer apparatus for arranging stacks of product in multiple rows onto a conveyor in a single row having first and second conveyors with pluralities of spaced apart belt loops, a plurality of elevator assemblies, and a pusher assembly which pushes the stack of product from the elevator assembly to the second conveyor, the elevator assemblies do not move vertically through the gaps between the first conveyor belts to engage the stacks as required by the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Deuble whose telephone number is (703) 305-9734. The examiner can normally be reached on Monday through Friday except for alternate Fridays.
